9. RESPONSIBILITY OF THE RENTER

During the rental period, the renter is responsible for all damage to the vehicle, loss or theft of the vehicle, including parts and equipment, if the third party's responsibility is not known. Liability for new damage is void only if a third party is known to be responsible for the new damage. In this case, the renter must provide an EU report where the fault is known or a document from official authorities (police, court, etc.) where a description of the event and the fault of the third party are clearly visible. In order to avoid additional liability, the renter can pay extra or choose additional coverage when picking up the vehicle. New damage is handled by the claims department of Sixt Slovenia. An email to the renter's email address or a message by regular mail is sufficient for notification of new damage and all further communication. The renter is obliged to complete a new damage report within eight days, otherwise all coverage will be excluded from the rental, and the renter will become fully liable for the newly incurred damage. The damage is assessed by an external expert agency, and the invoice is subsequently issued to the renter separately from the rental invoice based on the experts' assessment. Damage may also be calculated based on the estimate of repair costs by an official appraiser. In the event of major deviations from the official appraiser's calculation and major damage to the vehicle that exceeds the amount of the renter's liability, or in the event that the renter does not have damage insurance for the vehicle, the damage to the vehicle may be calculated based on the estimate of repair costs, to which the depreciation of the vehicle is added, or based on the maximum replacement value in the event of theft or loss of the vehicle. The lessee fully covers the costs of roadside assistance, the appraiser's costs in the amount of 18.30 EUR, towing the vehicle and the loss of the possibility

of further rental, administrative costs in the amount of 10% of the estimated amount up to a maximum of 61.00 EUR (or more, if Sixt rent a car can prove them) for handling the procedures and other costs incurred. If the vehicle is not in a condition for further rental due to new damage and immediate repair is required, the lessee will also be charged for the loss of the possibility of further rental, regardless of the utilization of all vehicles in the Sixt Slovenia fleet. In the event of new damage, the lessee is obliged to provide a copy of their personal document and driving license, which the lessor can use exclusively to resolve the claim. After reviewing the documentation and determining the lessee's responsibility for the new damage, the claims department issues an invoice to the lessee, who undertakes to settle the costs of the new damage within fourteen days. If the renter fails to pay the costs within fourteen days, Sixt Slovenia has the right to refer the case to a collection agency. When handing over the vehicle to other persons, including additional drivers - in accordance with point 3 - the renter is still responsible for fulfilling the terms of this rental agreement and for the conduct of other persons as if it were his/her conduct. Damages are charged to the renter according to the vehicle reservation group on the damage price list. All damages that are charged to the renter are also recorded in the system and displayed on the report, so-called vehicle condition report before the vehicle is rented. Damages that are not in the system and are not charged are all surface scratches and scratches of 2 cm in diameter. All dents are charged to the renter according to the applicable damage price list.

The amount of the renters contracted normal responsibility for damages and/or theft of vehicle is stated on the rental agreement and can also be found on valid pricelists on display in all rental locations. Purchased product to achieve a limitation of responsibility will cover the renter and passengers in accordance with terms of insurance policy affected by lessor. The fees exemptions are obtainable from Sixt rent a car. Liability for damages to the vehicle's body and/or loss can be minimized or even reduced down to 0,00 EUR with purchase of either Top LDW or Super Top LDW insurance, which has to be added to the rental agreement in written form, in addition »Tyre&Glass coverage« can be added in the same way, to reduce renter's liability for damages to tyres, wheels, rims or glass surfaces. BQ coverage product covers the soiled state and damages to the interior of the vehicle. The BQ coverage product on the rental agreement is not valid if the soiled state and damages to the interior are caused by negligence and vandalism. In case of negligence or vandalism, Sixt can send the invoice to the renter for any costs that may occur with repairing the damage and cleaning the soiled state of the vehicle.

11. LAPSE OF LIMITATION OF RESPONSIBILITY

The limitation of responsibility under section 10 shall not apply in case of renters/drivers violation of the terms set in either section 2 through 8. In particular, this shall result from not summoning the nearest Sixt Slovenia station in damage or loss of vehicle case – no matter if a third party is involved or not – thus depriving Sixt of the possibility to clarify the matter impartially; from the vehicle being operated by a driver not authorized under section 3; from violation of the entry clause under section 6; from operating the vehicle under the influence of alcohol, tranquilizers, sleeping drugs or any other drugs that may influence the drivers ability to operate the vehicle resulting in damage or vehicle loss. The limitation of liability shall not apply if the car keys and/or the documents of the vehicle are not returned to the SIXT rental station, stated on the rental agreement as the drop off location. Neither shall the limitation of responsibility under the section 10 apply in cases where there is a fair presumption that the damage is caused intentionally or gross negligently. Lapse of the limitation of responsibility will result in the renters full responsibility as set out in clause 9. The coverage does not cover damage to the or caused by: damage or destruction of motor and other parts of the vehicle due to loss of cooling liquid, when driving after the vehicle was damaged; loss or use of the wrong type of fuel, motor oil, transmission or differential oil, ad-blue fluid (if such technology is used) and cooling liquid for whichever reason; damage due to load; damage due to operation before final repair; damage due to breaking of legal and technical regulations and principles, technical exploration of the vehicle and preventative measures; damage and additional costs for intervention costs caused by loss of breaking of the vehicle's keys or code card; damage due to transport with another vehicle by land, rivers, lakes, and seas; damage as a consequence of all kinds of wear and tear, braking, abrasion, erosion, cavity, etc. All named damages will result in lapse of limitation of responsibility. This will result in the renters full responsibility as set out in clause 9. The renter is obligated to complete and return the new damage report within 24 h or liability will not be limited to the excess amount on the rental agreement and Sixt Slovenia will be seeking all of the losses.

12. INSURANCE COVERAGE

13. RENTER'S FINANCIAL OBLIGATION

Upon return of the vehicle, the renter must pay Sixt rent a car the full amount resulting from the information stated on the first page of the contract. If the vehicle is not returned on time, the renter pays the agreed tariff for each additional started day. If a special tariff with a time limit was originally agreed, the entire rental will be charged from the beginning at the standard tariff, which is valid from the date the renter takes over the vehicle. This includes damage to the interior (cigarette burns, etc.) and other equipment, as well as damage due to improper use and loading. The renter shall pay Sixt rent a car all costs, including the full value of the vehicle, in the event of damage and/or theft, if this is due to the renter's violation of the provision regarding the protection of the vehicle against automatic engine start and unauthorized use. The above applies in all cases, including the case where the renter's liability has been reduced by purchasing the LDW product. In the event of an accident where another vehicle or driver is responsible for the damage to the vehicle and the renter fails to comply with all the items described in point 8, the renter is liable for the damage to the vehicle in the full value of the damage, determined as described in point 9. The renter must present his/her credit card upon conclusion of the contract. In the case of payment of rental costs by credit or bank card, the cardholder's signature is considered as an authorization to debit his/her credit or bank card for the entire amount. This authorization also applies to further claims arising from rental changes, damage claims, traffic fines and possible towing costs. In the event of an accident, damage, loss or theft of the vehicle, the renter must provide and sign an additional credit card debit document, through which all additional costs arising from such an event are charged. VAT is charged on all billing items, which is added to the billing items specified in the rental agreement, at the rate applicable at the time the rental invoice is issued. Payment terms: credit or debit card upon service provision or upon invoice issuance within 8 days (unless otherwise agreed in writing between the lessor and the renter). Provided that a legitimate interest is demonstrated, the lessor is obliged, in the event of a request from a state or other competent authority (parking lot manager, law firm, road manager), to provide the latter with information about the renter/driver who rented/drove the rented vehicle at the time of the offense or illegal conduct.
